GULF CASCADE BIOCURE

Highly effective biocide for the treatment of soluble metalworking coolants

Description

GULF CASCADE BIOCURE is a high performance biocide for use in aqueous solutions and emulsions of cutting fluids. It is highly effective against aerobic and anaerobic bacteria, yeasts and fungus.

Dosage

Add directly to the sump containing the soluble cutting oil at a concentration of 0.15%

(approx 0.33 litre to a 250 litre sump).

Appearance

Pale yellow clear liquid with characteristic odour.

Alkalinity

pH in tap water (0.1%) near neutral therefore less chance of skin irritation than with other high

pH products.

Storage:

- Store in a cool, well ventilated area
- Store inside, ideally between 10°C and 30°C
- Store away from direct heat and frost
- Shelf life 12 months from the date of manufacture
- Avoid water collecting on the barrel top
