GULF CASCADE SYSTEM CLEANER

Ultra high performance machine tool cleaner and sterilising fluid

Description

Effective at low concentrations, suitable for small sumps and large central systems

Gulf Cascade System Cleaner is an ultra modern cleaning and sterilising fluid with excellent performance against bacteria and fungi, and a powerful degreasing action.

Key Benefits

- Ultra High Performance
- Effective against bacteria and fungi
- Degreasing action
- Cleaning action
- Excellent Corrosion Protection
- Low Foam
- Helps remove Sticky Deposits

Compatibility

- The cleaner has good anti-corrosion properties and is suitable for use in all machine tools.

Typical Applications

- Standard cleaning 1 – 2%
- Heavy Duty 3 – 4%

Application Method

Add product to a point of high agitation to ensure good mixing. For optimum cleansing performance allow the product to remain in the system for 24 hours before the system is emptied and refilled.

The machine can still be used during the cleaning process but extra care should be taken in handling the coolant, gloves would be recommended.

General Compatibility

- Waters from 30ppm to 500ppm (Calcium hardness)
- Low foaming tendency
- Suitable for treating high and low pressure applications
